DETAILED ACTION

1. This action is responsive to communications: original application filed 12/03/2003
2. Claims 1-54 are currently pending in this application. Claims 1, 7, 10, 12, 13, 17, 19, 25, 28, 30, 31, 35, 37, 43, 46, 48, 49, and 53 are independent claims.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-6, 19-24, 37-42, 7-9, 25-27, and 43-45 are directed toward authentication by digital signature representation, classified in class 713, subclass 176.
 - II. Claims 10-11, 28-29, 46-47, 12, 30, and 48 are drawn toward generating a specific digital signature type, classified in class 713, subclass 180.
 - III. Claims 13-16, 31-34, 49-52, 17-18, 35-36, and 53-54 are drawn toward particular communication authentication technique, wherein message digest travels with message, classified in class 713, subclass 181.
4. The inventions are distinct, each from the other because of the following reasons:

Inventions I through III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention (I) has separate utility such as performing format conversion processing to data, (II) has a separate utility such as generating a digital signature, and (III) has a separate utility such as calculating and restoring hash values.

5. Because these inventions are distinct from the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. Because these inventions are distinct for the reasons given above, the search required for Group I is not required for Groups II and III; the search for Group II is not required for Groups I and III; and the search for Group III is not required for Groups I and II.

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
